Dear Mr. Donker:

It is indeed a pleasure for me, as Governor of the State of Nevada, to extend a very warm welcome to the players and spectators taking part in the Amateur Hockey Association of the United States Junior "C" National Championships being held at the Reno/Sparks Convention Center.

I would like to congratulate the Northern California Junior Hockey Association for hosting this very prestigious event and to thank the many volunteers who have given much of their personal time in organizing the tournament.

TO: THE CALIFORNIA AMATEUR HOCKEY ASSOCIATION

It gives me great pleasure to convey my regards to all those participating in the CAHA National Championships for Junior C players.

Hockey is a fast-paced, exciting sport requiring skill and stamina as well as a sense of teamwork. The California Amateur Hockey Association provides those aged 17 to 19 with a fine opportunity to compete, and I commend the dedication of those players in these championships.

Best wishes to all, participant and spectator alike.

Most cordially,

POST OFFICE BOX 1900 • RENO, NEVADA 89505 • (702) 785-2000

WELCOME TO RENO!

It is a great pleasure to learn that Reno will be the host City for the Amateur Hockey Association National Championships in the Junior Division in April. I know that publicly elected officials tend to get "carried away" in extolling the virtues of their particular city, but we in Reno truly believe that we have much to offer which simply is not available in many other communities.

We are less than an hour's drive from beautiful Lake Tahoe where some of the world's finest skiing and recreational facilities are to be found; one-half hour from colorful Virginia City, the site of the Comstock mines and the home of Bret Harte; we have fine entertainment and food, the equal of that to be found in much larger and less friendly cities and accommodations to fit the most discriminating tastes.

We are most anxious to have Amateur Hockey Association members as visitors to our City, and please be assured that my office stands ready to assist you in any way.

Sincerely,

Peter J. Sferrazza

SUCCESS AND FAILURE IN HOCKEY

Success and failure are as much a part of any hockey game or any hockey season as sticks and pucks. A noted doctor once said, "In the long run, organized hockey helps to teach a child how to attain success (hopefully in a fair way) and also how to cope with failure and loss—the aims of all education and worthwhile discipline."

In hockey, every player wants to be a winner, to be *successful*. It doesn't make sense to enter a game with the goal of *losing*. Defeats in life come easily enough without deliberately seeking them out. To have any meaning at all, sports must be based upon the *honest attempt to win*. The players on a winning team wear happy faces. The players on the losing side are sad.

No matter what the outcome of a game, kids should be confident that they've done their level best—that's what really counts.

Too often, coaches and parents place far too much emphasis on winning. They may not admit it, but they've adopted the slogan of a famous football coach, Vince Lombardi, who often said, "Winning isn't everything... it's the only thing." Well, it may be the "only thing" for professional players, but the motto does not apply to young players who are just beginning to learn about themselves.

Minor hockey is no place to impose ruthless adult goals like "Win at all costs". The resulting pressure on the youngster playing the game, the fear of failure, can lead to dangerous consequences.

Hockey is a game of fun but the fun soon goes out of the game when a player feels the constant pressure to win. If he misses a goal, if he's part of a losing team, he feels that parents and coaches are branding him FAILURE. That's when he may decide that stamp collecting is a more satisfying pastime.

All kids can easily identify with the hapless Charlie Brown of Peanuts cartoon fame. There he is... all alone on the pitching mound. The bases are loaded in the last inning of a championship game. Realizing the awful gravity of the position he's in, Charlie can only mutter: "My stomach hurts."
