Owens-Illinois. Around the world. Across the nation. And just up the street.

With sales in excess of \$3 billion a year, more than 100 domestic facilities in 28 states, 80,000 employees, and operations on six continents, O-I is the 92nd largest industry in the nation. We're big, sophisticated, and growing.

Here in Toledo, we're also your neighbor.

We maintain more than a dozen local facilities, including the O-I Building (St. Clair & Madison); the Duraglas Center (14th & Adams); our Technical Center (Dorr & Westwood); the Libbey Glass Plant (Ash Street); and Levis Development Park (Perrysburg). There are some 5,600 O-I employees in Toledo – your friends, relatives, neighbors. Our Toledo payroll is currently in excess of \$100 million annually. And we purchase more than \$40 million worth of supplies and services from more than 1,000 Toledo area businesses, large and small.

And we try very hard to be a good neighbor.

We support community institutions like the Toledo Zoo, the Art Museum, the Symphony, the Medical College of Ohio, Owens Tech, Bowling Green University, and the University of Toledo, and boost community action and civic responsibility groups.

The taxes we pay on our Toledo facilities help support everything from community services to police and fire departments, and we encourage all Toledo employees to take an active role in community affairs that range from politics to the Boy Scouts to the United Way Campaign.

In short, we're concerned, we're responsive, we're involved.

Toledo – it's our hometown, too.

A Toledo-based, multinational, \$3 billion manufacturer and marketer of glass containers, plastic containers, corrugated boxes, closures, metal cans, Lily paper and plastic convenience products, Libbey glass tableware, Kimble brand scientific and laboratory ware, television bulbs and faceplates, composite cans, plastic and paper shipping bags, shrink and stretch film, and new-generation products for the markets of tomorrow.

CI
OWENS-ILLINOIS

He could be learning the business.

Kids have energy and brains to burn. They get to an age when they're beyond toys and games. They get caught up in real things, when someone gives them a chance.

That's what Junior Achievement is all about. Mini-companies formed, run and staffed by kids. Kids who dream up products and product applications the world can really use. Along the way, J A kids learn a

lot about administration, accounting, manufacturing, marketing, selling and profit.

J A companies need support from people like you. People who know a little something about the business world and don't mind passing it along to the next generation. And J A needs funds and sponsorships from companies like yours and ours.

LOF is always looking forward.

To the tomorrows that will require new products and new people to make and market them.

Junior Achievement. Because kids have a lot to learn.
